

Eliciting /l/ sound

This sound is somewhat varied, especially depending on what precedes or follows it. Generally it is made by placing the tongue just behind the top front teeth and passing air through the constriction. Keep in mind that /l/ is a later developing sound.

Suggested words (remember the beginning words need functional meaning for each individual child):

Initial /l/ words

luck	leaf	lid
lick	light	lie
lump	leg	lots
last	look	low
large	love	lazy
